11:10 AM	Free Play at Nature Explore Classroom

Curriculum & Learning

Our program is inspired by the Reggio Emilia approach and utilizes an emergent curriculum. This means that:

- Our environment is a 'third teacher'. We provide materials to provoke curiosity in our indoor space and are fortunate to have numerous outdoor spaces to learn from.
- The vast majority of our curriculum is built from children's interests and ideas. While we have a theme as a starting point, we follow children's inquiries and seasonal studies.

Outdoors in All Weather

As we are a nature-based program, most of our morning is spent outdoors. We go out in rain, sun, and snow! Your child will need to be prepared for all of the elements.

We have a limited amount of gear to lend out each season. Please reach out if you're interested in borrowing rain boots, mittens, snow pants, or other gear.
